

Ease Capital is the fastest, simplest, and most reliable way to finance multifamily properties.

- » Ease provides borrowers structural flexibility to maximize proceeds in a market with constrained lending parameters and liquidity.
- » Strategically place floating rate debt on an asset that is stabilized to maximize proceeds, avoid amortizing on high rates, and improve optionality and flexibility to refinance or sell in the next 24-36 months if longer-term rates compress

Loan Amount	\$5 - \$30 million
Term	Floating rate for 3 to 5 years
Interest Rate	SOFR + 225-300
